Bitė Group announces Sustainability Report for 2021

Bitė Group, a leading telecommunications and media group in Lithuania, Latvia and Estonia, presented second Sustainability Report for 2021. Sustainability report 2021 provides a comprehensive review of the Group's actions and the impact our operations have on the environment, communities, customers and our employees. The report also examines how we are coping with various challenges in responding to climate-related risks and achieving science-based greenhouse gas emissions reduction targets. The report outlines the steps we are taking to further strengthen our approach to ESG and sustainability.
